550 Hogheads go to an English Purchaser at Committee's Price.

Marion Graded School District, No. 27

[BY JAMES N. BANKS.]

Manager William Elliott has closed a deal with an English purchaser whereby five hundred and fifty hogheads of Association tobacco-all put up at Sebree-is sold to go over the water. I write it five hundred and fifty hogheads when for utmost accuracy I should record it as from five hundred to five hundred and fifty

All I am permitted to say in re-

The sale will realize for the Assodiation from sevety-five thousand to eighty-five thousand dollars.

It gives me unalloyed satisfaction to report this sale to the good and loyal members of this Association who are so patient and uncomplaining when sales are delayed. "Any prospects for further sales?"

plumped at Manager Elliot. "Tell the good members prospects are good," he answered.

We are authorized to sell the old Southern Presbyterian church bullding and lot in Fredenia, Ky.

Those desiring to purchase will please mail bids for same to J. W. Blue, Jr., of Marion, Ky., before the 15th of August 1969. Eldred,

冬 REASONS GREAT **MAJESTIC** SHOULD BUY

1st. It has the reputation of being the best Range money can buy.

2nd It not only has the reputation, but is the best range made, and we see will prove this to you if you will let us.

It is constructed of Malleable iron, material you can't beat, and of 🕿 Charcoal Iron-material that resists rust 300 per cent. greater than steel-, is riveted together air-tight No heat escapes or coldairenters rangethus uses very little fuel to do perfect work.

BOO BOO BOO BOO BOO BOO BOO BOO The reservoir alone is worth the price of the range over any other reservoir made. It boils 15 galons of water; is heated like a teakettle, with pocket against left-hand lining, and is movableand sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

Majestic Ranges use less fuel; heat more water--and heat it hotter; costs nothing for repairs; last three times as long; bake better; easier to keep clean and gives better satisfaction than any other range on the market. If you knew positively that the above statements were true, wouldn't you buy a Majestic at once? Come In During Dem onstration week and we will prove it to you:

Preachers and Newspaper Editors and Correspondents are not the only fools in the world. Did you ever think of that? There are others! And sometimes they talk out on the street. I overheard two of them the other day; talking about Masons and Dixons line. Both of them had "Bug House" qualities that made them eligible to membership in the Gimlet Club. They thought that Mason and Slidell was a misprint. The real Mason and Dixons Line is the boundary that separates Pennsylvania and Marvland and it was surveyed by Charles Mason and Jeremiah Dixon, English Surveyers between the years 1763 and 1767, except 22 miles surveyed later by Mc-Clean. When Mason and Dixon came to Dunkards Creek, at a spot now in Green County Pennsylvania the Indians shined their tomahaws in their faces and said, "We've got all they will know aproximately how this Mason and Dixon business we want", and the surveyors had to hike for tall timber. DISTINCTION AND STYLE

We have been succesfull because we have a style and distinction to our printing that the ordinary man didn't have the talent or inclination to give. We have cut out for ourselves and individuality-a style.

You have the same thing; you have individuality. It sticks out; when a person hears something you have said, he says, "That sounds like Brown." It's same way with your printing. Does it impress with a distinction or style? If not you should telephone or write to
